# ClearSkies News

**DECEMBER  
2011**

**VOLUME 19**

## **SEMTECH ECOSTAR Test and Validation**

The SEMTECH ECOSTAR's gaseous measurement system has undergone extensive validation testing over the past year. The unrestricted version of this report is planned for release in early Q1 2012. Here, we provide you with a quick preview of some of the linearity results, which verify that the system is qualified to meet EPA 1065 emissions measurement criteria.

## **Join the Sensors Roadshow!!**

In March of 2012, Sensors will embark on our first ever Sensors' Emissions Roadshow! Sensors' Mobile Emissions truck, shown in the inset below, will be equipped with our SEMTECH ECOSTAR product line, stopping along the way to conduct free product demonstrations. Our tentative route is shown below, with opportunity for sidetrips to come directly to your location! We will stop in San Diego for the CRC 22nd Real World Emissions Workshop and for the CCERT conference from March 25-30, before returning home.

Contact Mary Jordan today to sign up for your free demonstration of our SEMTECH ECOSTAR emissions product suite.

## Visit Us in 2012 at CRC's 22nd Real World Emissions Workshop

On March 25-28, Sensors will once again attend the Real World Emissions Workshop sponsored by the CRC in San Diego, California. The workshop will focus on the following areas:

- Emissions Models
- Improving the Emissions Inventory
- Diesel Contribution to the Inventory
- Particulate Matter Emissions
- Real World Particulate Matter Measurements
- New Measurement Methods
- Unregulated Emissions
- Inspection / Maintenance (I/M) and OBD
- Fuel Effects on Exhaust Emissions
- Off-road / Nonroad Emissions

Sensors will be showcasing our SEMTECH ECOSTAR and SEMTECH LASAR product lines. Come visit us and see our emissions analyzers at work!
